# Not getting enough sleep

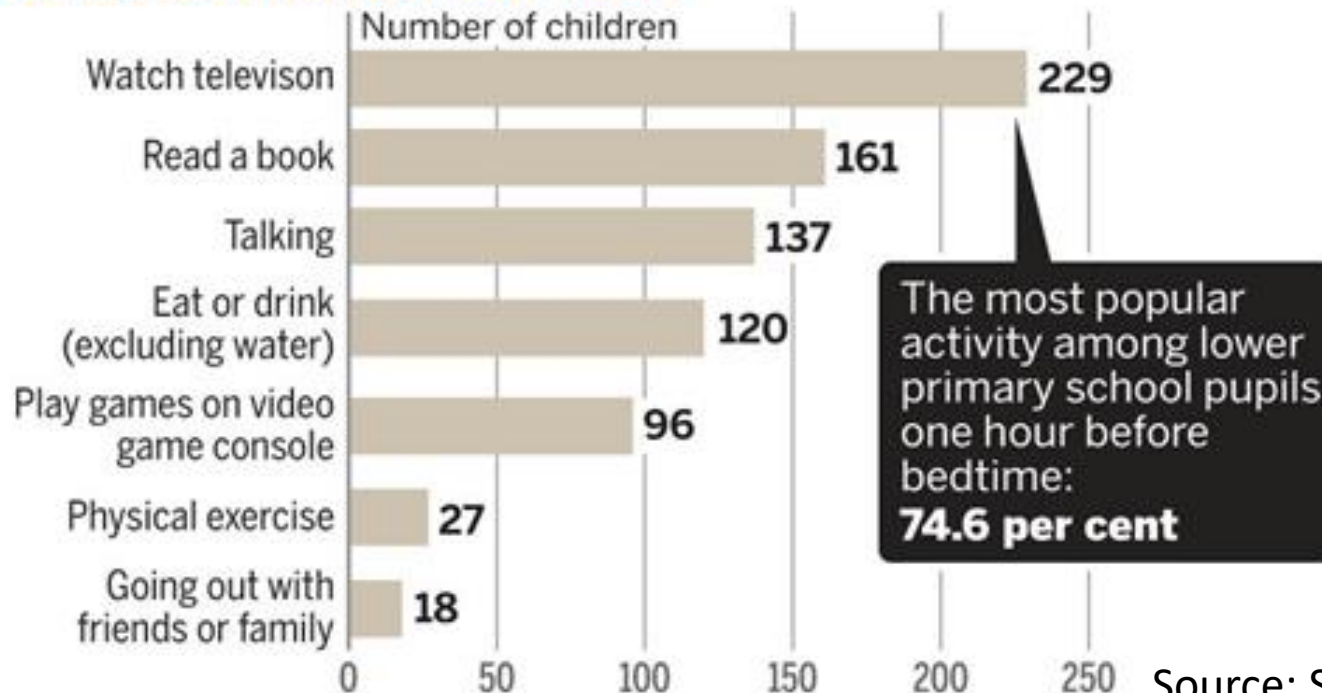

Fresh findings from a survey by Nanyang Technological University students reveal children's daytime behaviour, and activities that they engage in an hour before bedtime. It is the first local study that focuses on the sleeping habits of children aged six to nine.

## Lower primary school pupils' daytime behaviour

<b>44.9%</b> fall asleep when commuting on transport	<b>37.5%</b> feel sleepy during the day	<b>17%</b> fall asleep while watching television
---	--	---

## Child's activities before bedtime

***“On a school day, most pupils sleep an average eight hours, fewer than the nine to 10 hours they should ideally clock. This means **if a child gets up at 6am, he has to be in bed by 9pm, at the latest.**”***
