

Exciting News: Our School is Relocating to Tengah in 2028!

We are thrilled to announce that in 2028, our school will be relocating to a brand new campus in the vibrant and rapidly growing Tengah Estate! [[MOE's Press Release](#)]

This move marks a significant milestone in our school's journey and promises an enhanced educational experience for all. Our new location will feature state-of-the-art facilities, innovative learning environments, and expansive green spaces, all designed to foster academic excellence and holistic development, and befitting of a school within Tengah New Town that features eco-friendly and SMART technologies.

Imagine modern classrooms equipped with the latest technology, cutting-edge science and computer labs, a spacious library filled with resources to inspire young minds, and sports facilities that will take our physical and outdoor education programme to the next level. The new campus will also offer collaborative spaces that encourage creativity and teamwork, preparing our students for future challenges and opportunities.

We are committed to ensuring a smooth transition and will keep you updated with regular reports on our plans for the new school. Join us in our journey to our new home, where the Kranjian spirit will continue to thrive and grow. We can't wait to see you at Tengah!
